

Bee at Home

we believe

IN HOME CARE

Welcome to Bee at Home's Assisted Living at Home program. Today we want to help answer some questions you may have about our home healthcare program and share with you how our care is changing people's lives each day.

If you aren't familiar with the idea of Assisted Living at Home, it is exactly what it sounds like. We provide assisted living care right in the comfort of your home, giving you and your family peace of mind 24 hours a day. Our care program is the most trustworthy and dependable care alternative for patients who would like to return home with the care and help they need.

We know what it's like to place your trust in something so personal at a time when the world is moving just a little too fast. We are here to ask you to place your trust in our care program, so we can provide the support and services you will need along the way whether you are recovering from a recent hospital stay or discharging home from a rehabilitation facility.

Our care is as varied as the patients we care for, but our goal is always the same: to help you live safer and healthier right at home. At Bee at Home, we love to care and it shows. This is why patients and families have welcomed our care into their homes for nearly 40 years.

our services

CARE IN THE COMFORT OF HOME

At Bee at Home, our goal is to help you live more independently with a higher quality of life right in the comfort of home, even when faced with serious health concerns. Our program offers assisted living care services that provide support with personal care, fall prevention, and everyday living needs for 24 hours of comfort and safety right in your home.

Bee at Home's services typically begin upon discharge from a hospital or rehabilitation center. We help patients manage health concerns associated with the normal process of aging such as dementia, Alzheimer's, stroke, heart disease, Parkinson's, or diabetes, and aid in recovery from slips, falls, or other medical procedures. We support patients each day transitioning from facility to home with a care program that will continue to support recovery and build independence. At Bee at Home, we are dedicated to providing high quality, compassionate care where patients want to be most: in the comfort of home.

Our Bee at Home caregivers provide a complete personal care program including:

- Bathing
- Dressing
- Toileting
- Incontinence Care
- Lifts and Transfers
- Ambulation Assistance

Our full range of services include:

- Medication Management
- Nutritional Meal Planning
- Meal Preparation
- Light Housekeeping
- Laundry Services
- Companionship & Conversation

Our care management program provides you with a dedicated Care Manager who oversees:

- 24-Hour Care Services
- Fall Safety Prevention Program
- Pre-Discharge Therapy Training
- Weekly Supervisory Visits
- Personalizing Your Care Plan

For your continued care, Bee at Home works side-by-side with your:

- Visiting Nurse
- Physical Therapist
- Occupational Therapist
- Speech Therapist
- Hospice Care Services

our caregivers

CARING IS WHAT WE DO BEST

At Bee at Home, our caregivers give families peace of mind, knowing that their loved ones are safe and well-cared for. We provide only qualified, compassionate caregivers who possess the skills and training needed to help support your continued recovery. Our caregivers are kind, caring professionals who have the experience to help you live safer and healthier at home. Equally important are the personal qualities of our dedicated caregivers, who are warm, friendly, caring people.

Our caregivers are:

- Carefully Screened
- Vetted with Complete Background Checks
- Personal and Professional References
- Bonded and Insured
- Covered with Workers' Compensation
- Attend Company Orientation
- Red Cross Trained and Certified
- Receive Continued Education
- Individually Trained to Your Needs
- Supervised by Your Care Manager

To ensure the ongoing standards of our Assisted Living at Home program, each patient is overseen by a dedicated care manager. You can be assured that when you choose Bee at Home, we are with you every step of the way with 24/7 peace of mind, ongoing weekly supervisory visits, daily wellness calls, and a personalized care plan to meet your needs.

care management

IS THE BEE AT HOME DIFFERENCE

At Bee at Home, we believe how prepared you are to return home will make a difference in your health and continued recovery. That's where our Care Management team comes in, by taking an active role in your discharge process and providing ongoing care supervision and support for the duration of your services.

Bee at Home's care management program provides 24-hour peace of mind with diligent oversight, therapy training sessions, continued caregiver education, fall prevention, and onsite training to better support your return home, increasing your safety, mobility and personal independence. These services have made a dramatic difference in our patients' lives by reducing avoidable slips, falls, and hospital re-admissions.

Your Care Manager will:

- Attend therapy training sessions
- Provide a customized care plan
- Train your caregiver to your personal needs
- Conduct ongoing safety assessments
- Perform weekly supervisory visits
- Provide 24/7 peace of mind

Your Care Manager is with you every step of the way, from start of care to continually updating your care plan as your needs change. We also interact with your Visiting Nurse team to support and coordinate those visits, ensuring you are prepared to receive the full benefits of their program. And most importantly, your Care Manager is there to greet you on your doorstep when you arrive home.

Behind every care review is an experience that matters. We invite you to visit mybeeathome.com and hear what our clients say about Bee at Home's care program.

getting started

BRING GREAT CARE HOME

If you have received our care information from your social worker or another member of your professional healthcare team, then they believe you will benefit from our care program. Bee at Home has proven to reduce avoidable slips and falls and help patients transition safely from facility to home.

To Learn More

Contact our Client Care Center, where our dedicated care coordinators are available 24 hours a day, every day of the week to receive your call and connect you with our care management team.

It's Simple to Get Started

Our family care conference provides a thoughtful discussion about coordinating the care you will need when returning home. We begin by listening and understanding your personal needs, providing you with the details and cost of our services. We discuss your care needs and answer any questions or concerns you may have. When you are comfortable and ready to move forward, we review and sign our care agreement. Once completed, we focus our time and resources on developing your care team and preparing for your return home.

Welcome Home

At Bee at Home, we combine genuine compassion with diligent oversight to every aspect of your care so you can feel safe and secure when returning home. From our Client Care Center to our care program, we go above and beyond to provide you with an exceptional care experience. We invite you to contact our **Client Care Center** by calling **1.800.749.5288**.
